Do not pass up this one-half price offer of surplus stock in good items. Divide the price below, which is the usual standard price, by two; you save 50c on the \$1.00. Time limit May 15th. Cash must accompany order or stock shipped C. O. D. Write or wire at my expense today. Retail demand is good. Grow your own and put the profit in your pocket.

## EVERGREENS Buxus, The Boxwood	2 yr. trans. 8-10 in	CRYPTOMERIA CRYPTOMERIA JAPONICA (Common Cryptomeria) A great favorite in Japan, attains a height of 100 or more feet. Of graceful and rapid growth. Regular, pyramidal habit, the foliage somewhat resembles that of the Norfolk Island Pine; hardy in New England in sheltered position. 100 1000 2 yr. trans. 8-10 in. 15.00 135.00 2 yr. trans. 6-8 in. 12.00 100.00 2 yr. 8-10 in. 10.00 80.00 2 yr. 8-10 in. 10.00 80.00 2 yr. 6-8 in. 7.00 60.00 2 yr. 4-6 in. 6.00 50.00 1 yr. 2-4 in. 4.00 30.00 Euonymus EUONYMUS JAPONICA (Evergreen B.) Leaves dark, shining green. A fine plant for the lawn. Succeeds in almost any situation 2 yr. trans. 8-10 in. nursery rows 12.00 110.00 2 yr. trans. 8-10 in. nursery rows 12.00 90.00
Cedrus, The Cedars CEDRUS ATLANTICA (Atlas Cedar) A large majestic pyramidal tree with silvery green foliage. 2 yr. 6-8 in. 20.00 175.0 2 yr. 4-6 in. 12.00 110.0 1 yr. 4-6 in. 10.00 90.0 1 yr. 2-4 in. 8.00 75.0 CEDRUS LIBANI (Cedar of Lebanon) When small the tree is of conical regularly shaped outline with wide sprending branches, but as the tree increases in age it assumes a round open head, a change from the beautiful to the pictureaque. Aside from its ornamental value it is of peculiar interest for its scriptural and historical associations. It is said to be the most hardy of the Cedrus family. 2 yr. 6-8 in. 15.00 126.0 2 yr. 4-6 in. 9.00 80.0 1 yr. 4-6 in. 8.00 76.0 1 yr. 2-4 ir. 6.00 60.0	2 yr. trans. 6-8 in. 20.00 175.00 2 yr. beds 8-10 in. 12.00 100.00 2 yr. 6-8 in. 8.00 75.00 2 yr. 4-6 in. 5.00 40.00 1 yr. 4-6 in. 4.00 35.00 1 yr. 2-4 in. 3.50 30.00 CHAMAECYPARIS OBTUSA (Hinoki Cypress) A slender rapid growing plant, rather open in habit, with cupped foliage of a dark green color; usually of medium height, sometimes attaining a height of 18 feet. Prefers a rather fertile soil. 2 yr. 6-8 in. 7.00 60.00 2 yr. 4-6 in. 5.00 40.00 1 yr. 2 in. 3.00 25.00 CHAMAECYPARIS PISIFERA (Sawara Retinospora) Foliage bright-green somewhat pendulous. This is a very valuable and hardy form, and is not commonly grown monly grown 7.00 60.00	Larix, The Larch LARIX DAHURICA (Dahurian Larch) Rare rapid-growing species from Enstern Siberia; up to 80 feet. 2 yr. 4-6 in

Ligustrum, The Privets LIGUSTRUM JAPONICUM (Japanese Privet) A very handsome broad-leaved variety with large, dark-green leaves.	PINUS MONTANA (Swiss Mountoin Plno) Very variable in habit; usually low, often prostrate shrub, some- times pyramidal tree to 40 feet tall. Usually handsome low sbrub with	Ulex, Gorse ULEX EUROPAEUS (Common Gorse) Ornamental evergreen plant. Grown for their handsome yellow
Flowers produced in panticles fol- lawed by purple berries which are retained during the winter, giving the plant a very plessing appear- ance. This plant can be grown into a small tree, can also ho trimmed into pyramidal, standard or other forms. Ultimate height, 20	bright green folinge. 100 · 1000 2 yr. 4-6 in 6.00 50.00 PINUS MONTANA MUGHUS Perhaps the most useful of the dwarf Pines for foundations planting. Very shruhby and low.	Grown for their handsome yellow flowers. Has dark green spiny branches. Valuable for evvering dry sandy banks, nlso well sulted for sen-side planting. 100 1000 1 yr. 4-6 in 4.50 35.09
to 30 feet. 2 yr. eut-back 6-8 in 4.00 30.00 1 yr. 6-8 in 3.00 25.00 1 yr. 4-6 in 2.50 20.00 LIGUSTRUM JAPONICUM AUREA A large shruh similar in habit to Ligustrum Japonicum, but with leaves deeply margined with golden	2 yr. 2-4 in,	SHRUBS AND TREES ACER PALMATUM (Japanese Maple) This species and Acer Japonleum are known as Japanese maples. They are extremely handsome shrubs of dense though graceful habit, and with elegant foliage, beautiful especially in spring for its delicate shades of green and red, and again to autumn when the
yellow. Very attractive in plantings used in combination with green and silvery leaved forms. Ultimate height 8 to 10 feet. 2 yr. 6-8 in. Seedlings 4.00 35.00 LIGUSTRUM LUCIDUM (Glossy Privet) A beautiful form of Japanese Privet. Leaves large, thick, ovate, lanceolate of a very dark shining green. Large heads of white flowers produced in May, followed by black berries, which are retained through-	3 yr. 2-4 in 5.00 40.00 2 yr. 2-4 in 4.50 85.00 PINUS PINASTER (Cluster Pine) Trée to 100 feet, with spreading or sometimes pendulous branches forming a pyramidal head; branchlets bright reddish brown; buds oblong-oval brown, not resinous; leaves stiff, soute, usually twisted, glossy green. 2 yr. 10-12 in 6.50 55.00	icoves assume the most striking tints. Largely used for grafting stock for the many Japanese varieties. 1 yr. 3-4 in
out the winter. Hardy at Baltimore, A most desirable variety. Attains a height of 20 feet. 1 yr. 4-5 in 5.00 40.00 LIGUSTRUM NEPALENSE (Nepal Privet) Medium size, dark green, glossy leaves; uniform, compact spreading growth. A very attractive plant, essential to landscape planting in mneges, hanking or groups. Fills	2 yr. 8-10 in. 8.00 50.00 PINUS PINEA (Italian Stone Pine) Compact and symmetrical when young, and picturesque when older, with a broad parasol-like head. Hardy only in California and the South. 2 yr. 4-8 in. 5.00 40.00 1 yr. 4.50 85.00	the plant is covered with a profusion of white flowers, which are followed by hright orange betries, these being retained during the entire winter. 1 yr. 4-6 in
### space between tall, rank growing shrubs and the very low growing types. 2 yr. 8-10 in 8.50	PINUS PONDEROSA (Western Yellow Pine) Tree occasionally to 100 feet tall, probably 50 to 75 feet in cultivation. Important timber tree somewhat resembling Austrian Pine. Very fine ornamental. 2 yr. 4-8 in 3.50 25.00	green; clusters of white flowers in the spring nre followed by n wealth of orange-colored berries, which remain on the pinnt all winter. 1 yr 7.00 60.00 DESMODIUM BICOLOR (Lespedeza)
Fine leaf type. Blooms throughout the season. Excellent for florist's usc. Small leaves medium shade of greeo very dense compact growth. Shapely very desirable variety for groups and foundation planting. Medium height. 2 yr. 10-12 in. 4.00 30.00 Nandina	1 yr. 8.00 25.00 PINUS STROBUS (White Pine) The White Pine is the largest of all conifers native to the eastern part of the United States. It rendly adapts itself to both dry and moist soils, for it is found on the poorest and driest sand, and on steep, rocky slopes, and also on moist clay	2 yr. 12-18 in. 4.50 49.00 DESMODIUM FORMOSA ALBA (Lespedeza) 2 yr. 5-12 in. 4.50 40.00 PHOTINIA SERRULATA (Low Photinia) A shrub with large sblaing follage which frequently colors erlmson and bronze in winter. White flow-
NANDINA DOMESTICA (Nandina) The delicate foliage of the Nandina is a brilliant dash of gorgeous orange red or erimson color in winter. It is dense and stocky, being one of the dwarfish plants of Japanese gardens. The leaves are rich red when young, dark green at moturity, and holdly calored in winter. Nandina thrives well in any	flate and river bottoms. It grows rapidly and has long, flexible needles, whitish beneath. 2 yr. 8-8 in. 5.00 40.00 2 yr. 4-5 in. 3.50 25.00 PINUS SYLVESTRIS (Scotch Pine) A splendid tree of broad pyra- midal habit, rather open, with grace- fully swaying branches and needles of medium length of a bright green	ers produced in large trusses fcilowed by red berries. In spring the young growths are a delicate sbado of light green which an contoct with the darker foliage, gives a very beautiful effect. Ultimate height 5 to 12 feet. Prefers well drained, fertile soil and some sun, although does fairly well in abade. A very valuable and scarce plant. Do not fail to add this fine plant to your collection.
well drained, loamy soil, and is fairly hordy. In nutumn it is covered with snowy clusters of small red berries. This plant is one of the three plants most used in the better class of landscape work. 2 yr. trans. 4-6 in. 17.00 150.00 2 yr. 4-6 in. 10.00 90.00 Picea, The Spruces	color. Most soils and altuations: ultimate beight 35 to 40 feet. 1 yr 1.50 10.00 PINUS THUNBERGII (Japanese Black Pine) Tree to 100 feet tall. Large winter buds allvery-white. A handsome picturesque tree. 1 yr 8.00 25.00 Thuja, The Arborvitaes	2 yr. 5-8 in 8.00 75.0 2 yr. 4-5 in 7.00 50.0 PHOTINIA VILLOSA Of varying height but normally medium, liberally set with small corymbs of white flowers in June. The foliage is gorgeously red in the fall; and the bird-proof fruit-clusters earry the same searlet
PICEA ALBA Described by Bailey, the eminent horticulturist, as "A native of the Northern part of America." Derives the name White Spruce due to its light frosty green follage, slightly	THUJA OCCIDENTALIS (American Arbor-Vitae) The American Arbor-vitae is the mother tree from which upward of fifty distinct typos have been de-	gleam half through winter. 1 yr. 5-8 in 6,00 50.00 SYRINGA VULGARIS (Common Lilac) A standard, old fashioned garden
tinged with hine. 1 yr. 3.50 30.00 PICEA EXCELSA (Norway Spruce) For many years Norway Spruce has been highly appreciated because of its rapid growth, its tbriftiness, and its henvy masses of deep green foliage. Some of the finest old hedges are of Norway Spruce, as the trees can readily he pruned to any desired helght. On farms and around homes all over the country Norway Spruce wind-	veloped. The native forests of Arbor-vitue have long been of great commercial value for timber, producing tall, straight trunks much used for tolegraph poles. The Arhor-vitute is very hardy and dependable in almost any situation. Stonds trimming well, and for this reason is widely used for bedge purposes. It usually grows bushy at the bottom and tapering toward the top. Foliage is very soft and flexible and of fine deep green color. 1 yr. 3.00 25.00	variety: flowers bluish purple. 2 yr. trans. beds 8-10 in 12.00 100.00 2 yr. beds 5-8 in 8.00 50.00 1 yr 3.00 25.00 SYRINGA VULGARIS ALBA The old finshloned White Lilac, blooming in early spring; very fragrant. 2 yr. 4-6 in 5.00 45.00 TAXODIUM DISTICHUM (Common Bald-Cypross A tall pyramidal tree; grown for
breaks are giving substantial protection to stock and buildings. Norway Spruce is a tail, picturesque, and hardy tree, graceful in all its lines, and well adapted to planting over a wide range of territory. 4 yr. twice trans. 8-12 in	THUJA ORIENTALIS (Oriental Arbor-Vitao) A comparatively low, broadly pyramidal tree, native of Asia. Its color is a refreshing yellowleb green similar to Hovey's, although dulling to bronzy green in winter. Very rapid grower. 3 yr. trans. 12-15 in 15.00 125.00	their graceful feathery foliage which lie light green in color. 2 yr. 18-24 in 10.00 90.00 1 yr. 5-8 in 8.50 75.00 VINES
1 yr. 1 in 1.25 10.00 PICEA PUNGENS (Colorado Spruco) Tree 80 to 100 feet or more. Handsome tree of symmetrical habit with light colored foliage. Very popular ns a lawn tree and for dry elimates. One of the hest of all	3 yr. trans. 8-10 in	HEDERA HELIX The well-known Ivy of the South; glossy green leaves; rapid growing canes which will cling to walls or trnll niong the ground, making a dense cover, succeeding in either sun or sbude and in most soils. 2 yr. beds rooted cuttings
Spruces. 2 yr. 2-4 in. 4.50 35.00 1 yr. 1 in. 3.00 25.00 PICEA PUNGENS GLAUCA A selected blue shade. 2 yr. 2-4 in. 5.50 45.00	1 yr. 2-4 in 2.00 18.00 THUJA ORIENTALIS AUREA (Golden Oriental) Chinese Arbor-vitne grows much more rapid than other varieties here listed and may be ensily bedded out at one year. The varieties listed are	(small leaf) 4.00 35.0 2 yr, 2½ in. pots 16.00 150.0 VINCA MINOR (Periwinkle) 1 yr., strong plants 4.00 35.0
Pinus, The Pines PINUS AUSTRIACA (Austrian Pine) Hns rich, glossy, dark green foliage.
